TITLE	Midlands Technical College Fact Book, 2000-2001.
INSTITUTION	Midlands Technical Coll., Columbia, SC.
PUB DATE	2001-00-00
NOTE	148p.
AVAILABLE FROM	For full text: http://www.mid.tec.sc.us/arp.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC06 Plus Postage.
DESCRIPTORS	Community Colleges; Dropout Rate; *Enrollment; Enrollment Trends; *Institutional Characteristics; *School Demography; *School Statistics; Student Attrition; *Student Characteristics; Two Year Colleges
IDENTIFIERS	*Midlands Technical College SC

ABSTRACT

The report provides statistical information to support the administration of Midlands Technical College (MTC) (South Carolina) in planning and decision making. Section one describes MTC's history, mission statement, and program offerings. Section two focuses on curriculum student enrollment for the fall 1996 to fall 2000 semesters. Enrollment comparisons are provided to view MTC in comparison with other South Carolina institutions. Overall student enrollments by full-time/part-time and day/night status, sex, race, campus, and county of residence are also provided. Section three includes enrollment profiles by division and program. Section four provides information on graduates in regards to the degrees, diplomas, and certificates awarded by the institution. Graduate placement survey data are also presented for 1994-1999. Section five reviews student retention rates based on first-time entering freshman and transfer-in students. Section six provides information on MTC's Continuing Education division enrollment figures from 1995-2000. Finally, section seven gives economic/population data for South Carolina and MTC's section area. Highlights for fall 2000 include: (1) headcount for MTC was 9,702; (2) total headcount for all institutions in MTC's service area was 31,256; (3) 55% of students were part time; (4) 59% were female; (5) 32% were black, 56% were white, and 12% other; (6) average age was 26; and (7) 166 diplomas and 456 certificates were awarded. (Contains 14 figures and 121 tables.) (KP)

HOW DID WE DO?.....

The purpose of the Midlands Technical College Fact Book is to provide statistical data to support the College's administration in sound planning and decision making. We need your help to improve this publication and make it a more useful and informative document. After reviewing the Fact Book, please complete this questionnaire and return it to the Assessment, Research and Planning Office on the Airport Campus.

Optional: Name _____ Ext. _____

1. Did you find any information that was particularly useful and that you would like to see continued? Please list page number(s).

2. Did you find any information that should be eliminated from future editions? Please describe and list page number(s).

3. Please describe any information that you found confusing. Please list page number(s).

4. Is there any information you think should be added or expanded in future editions of the Fact Book?

5. Additional Comments:

THANK YOU FOR YOUR ASSISTANCE

PURPOSE AND CONTENT OF THE FACT BOOK

The purpose of the Fact Book is to provide statistical information to support Midlands Technical College's administration in sound planning and decision making.

The Fact Book is divided into seven distinct sections. The first several pages review general information about Midlands Technical College's history, mission statement and its program offerings.

The second section focuses on curriculum student enrollment for the Fall 1996 to the Fall 2000 semester. Enrollment comparisons are provided to view Midlands Technical College in regards to other South Carolina institutions. Overall student enrollment by full-time/part-time and day/night status, sex, race, campus and county of residence is also provided. Enrollment profiles, by division and program, are also included in Section three. For other statistical information, please contact our office.

Section four provides information on graduates in regard to the degrees, diplomas and certificates awarded by the institution. Graduate placement survey data are presented for the 1994-1995 through 1998-1999.

Section five reviews Midlands Technical College's student retention rates. Retention rates are based on first-time entering freshmen and transfer-in students only. For breakdowns by specific cohort groups and detailed program information, please contact our office.

Section six provides information on the College's Continuing Education division enrollment figures from 1995-1996 through 1999-2000.

Section seven gives economic/population data for South Carolina and Midlands Technical College's section area.

Any questions regarding information contained in the Fact Book should be directed to personnel in the Office of Assessment, Research and Planning listed below:

Dorcas A. Kitchings, Director of Assessment, Research and Planning
Charles H. Parker, Director of Academic Planning and Reporting
Nancy Floyd-Finch, Research Administrator
Carolyn F. Roof, Research Analyst
Harriete Merrill, Administrative Specialist
Carla Sadlier, Administrative Specialist

Midlands Technical College does not discriminate in admissions or employment on the basis of race, sex, national origin, or ethnic group, color, age, religion, disability or military service. In compliance with Title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1992, Midlands Technical College offers access and equal opportunity in its admissions policies, academic programs and services, and employment of disabled individuals in that no otherwise qualified person will be denied these provisions on the basis of a disability. Dr. Ronald Rhames has been designated to coordinate compliance with the nondiscrimination requirements contained in section 35.107 of the Department of Justice regulations, section 504 and Title IX regulations. Information concerning the provisions of the American with Disabilities Act and the rights and privileges thereunder are available from the ADA/EEOC coordinator. He can be reached at: Midlands Technical College, P. O. Box 2408, Columbia, SC 29202, (803) 822-3261.

Midlands Technical College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number (404) 679-4501) to award associate degrees, diplomas and certificates.

GENERAL

INFORMATION

COLLEGE HISTORY

The present-day Midlands Technical College is the product of a rich and unique history. Never before had a public trade school, a public technical education center, and a private junior college merged to form a comprehensive two-year technical/community college in South Carolina.

In 1947, the South Carolina Area Trade Schools (SCATS) Act established the South Carolina Area Trade School – Columbia Campus to provide skilled and educated workers to fill the burgeoning manpower needs of the community. In 1968, the name was changed to Columbia TEC and it became part of the State Committee for Technical Education, which was responsible for guiding the technical programs in the state. The site of Columbia TEC is now the Airport Campus of Midlands Technical College and the campus enrolled approximately 4,550 students in Fall Semester 2000.

Richland Technical Education Center (Richland TEC) was established in 1963 to address the need for specialized training for industrial growth and the first students enrolled in the Fall of 1963. By 1969, the enrollment of the school expanded to 1,200 students and Lexington County officials joined forces with Richland County to form the Richland-Lexington Counties Commission for Technical Education. With this partnership, the name of the school was changed to Midlands TEC.

Approximately 15,500 students were enrolled in Midlands TEC between the years of 1969 and 1974. Major programs of study were offered in the areas of engineering technology, business and allied health. Midlands TEC (originally Richland TEC) is now the site of the Beltline Campus and the campus enrolled approximately 4,530 students in Fall Semester 2000.

Columbia's Palmer College, a private business college, joined with the State TEC Board in 1973. At that time, Palmer College annually enrolled 1,000 students in sixteen associate degree and diploma programs. On March 21, 1973, Columbia TEC, Midlands TEC, and Palmer College merged to form a single, multi-campus college that would operate as three separate entities governed by one local commission through June 1974. On July 1 of 1974, the three separate institutions merged to form Midlands Technical College (MTC) under the guidance of the Richland-Lexington Counties Commission.

Midlands Technical College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number (404) 679-4501) to award associate degrees, diplomas and certificates. Midlands Technical College currently provides a variety of educational opportunities which support its mission of human resource development in support of economic growth in its service region.

Approximately 90 associate degree, diploma, and certificate programs of study are offered here at Midlands Technical College. A strong college transfer program has evolved to allow students the opportunity to take the first two years of a baccalaureate degree and transfer to one of the state's four-year institutions. Midlands Technical College is currently the largest feeder college to Columbia College and the University of South Carolina.

The Harbison Continuing Education Center of Midlands Technical College provides continuing education opportunities to over 30,000 individuals annually and is one of the largest providers of noncredit professional upgrade training of any two-year college in the state. Off-campus sites offer college education classes to many of the area's residents.

The average age of Midlands Technical College students is 26 years old. The student population is 59 percent female. Approximately 550 people are employed at the College on a full-time basis. The majority of the faculty have attained at least a master's degree.

Approximately 76 percent of Midlands Technical College's 1998-1999 graduates who did not continue their education after graduation were employed in jobs related to their field of study. State-of-the-art equipment, a well-qualified faculty and staff, and hands-on experiences give Midlands Technical College's students the quality education and training they need to successfully compete in the marketplace.

STATEMENT OF VISION

Midlands Technical College will be a leader in creating innovative learning environments that enhance individual success, support economic development and provide opportunities for lifelong education.

STATEMENT OF MISSION

Midlands Technical College is a comprehensive, urban, public, two-year college serving the primary region of Richland, Lexington and Fairfield counties of South Carolina. College programs and services provide accessible, affordable, high-quality post-secondary education that prepares traditional and nontraditional students to enter the job market, allows them to transfer to senior colleges and universities, and assists them in achieving their professional and personal goals. Through its programs and services, the college equitably provides higher education opportunities and supports the economic growth of the community.

STATEMENT OF ROLE AND SCOPE

The college implements its mission through a clearly defined set of programs, services and partnerships that include:

College-Level Credit Programs. The college serves approximately 10,000 to 15,000 credit students through courses leading to associate degrees, diplomas and/or certificates in Health Sciences, Arts and Sciences, Business, Computer Technology, Public Service, and Industrial and Engineering Technologies.

Continuing Education Programs. The college provides professional and occupational training and development through open enrollment and customized courses to approximately 30,000 individuals from area businesses, industries, and governmental and health agencies. Self-supporting noncredit activities for personal enhancement are also available.

Student Development Programs and Services. The college offers developmental programs and services to enrolled and prospective students and alumni to increase their success and enhance their potential for personal, educational and professional growth.

Economic Development Programs. The college promotes the economic development of the region by providing work-force training for new and expanding industries and technology transfer to developing companies. The college also supports economic development agencies by assisting in the recruitment of businesses and industries to the area.

Access Programs and Services. The college provides special recruitment, counseling and evaluation services that increase access for students not traditionally served by higher education.

STATEMENT OF VALUES

Midlands Technical College respects the diversity of its student body and recognizes the work and potential of each student. Therefore, the college affirms the following values and beliefs:

Commitment to Students. Belief in the priority of providing the finest instruction, resources and support services to enhance the growth and development of our students. The college supports students in clarifying their lifelong goals, developing interpersonal skills, becoming self-sufficient and engaging in lifelong learning.

Commitment to Excellence in Education. Belief in providing and being accountable for the quality of technical and general education and student support services. Our associate degree graduates are prepared to demonstrate their knowledge in written and oral communication, mathematics, scientific method, individual and social behavior, computer skills, and humanities. Education in ethics, problem solving and critical thinking, research and information literacy, and technology literacy are integrated into all curricula.

Contribution to Community. Recognition of the importance of enhancing the economic vitality and quality of life for all citizens of the community.

Commitment to Access and Diversity. Belief that the college will provide access to programs and services to students who may benefit and that the college should represent the diversity of the community.

Commitment to Faculty and Staff. Recognition of the importance and contribution of all individuals who collectively create a positive learning environment. All members of the college community will have the opportunity to enhance their potential for purposeful, gratifying and productive lives.

Quality Campus Environment. Recognition of the importance of providing a safe work and learning environment that is characterized by integrity, clear communications, open exchange of ideas, involvement in decision making and respect for all individuals.

Effective Use of Resources. Belief in the effective use of college resources to provide quality education and services to its students and community and to be accountable to all of its constituents.

CURRICULUM

STUDENT ENROLLMENT

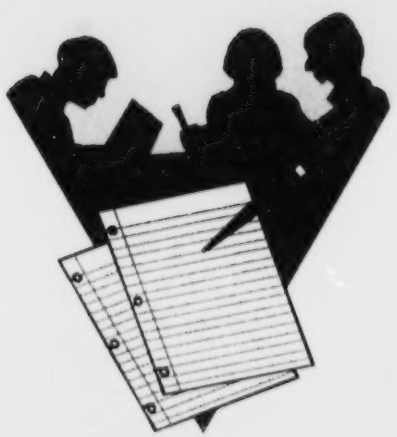
BY DIVISION AND PROGRAM



CURRICULUM PROGRAM STATISTICAL INFORMATION
BY COLLEGE/DIVISION/PROGRAM

DEFINITIONS

Total Headcount - Total number of students enrolled in a technical education program.

FTE (Full-Time Equivalency) - Technical education program enrollment as expressed in full-time equivalency. Total number of credit hours divided by 15 and calculated to the hundredth.

Retention Rate - Percentage of students who either continued their studies or graduated from a specified program within two defined periods of time.

Graduates Available for Placement - Number of graduates minus the number of graduates who indicated they were not seeking employment at the time surveyed.

Percent of Graduates Placed - Number of graduates who found employment related/unrelated to their program of study and those who continued their education elsewhere.

NOTES

A listing of all MTC Degree, Diploma, Certificate and Cooperative programs of study are provided on page 6 of this document. Only technical programs with headcount during the Fall 1996 through Fall 2000 semesters have their statistics indicated on the following pages.

Totals for Fall Term enrollment and student profiles found on the following pages do not match due to different run dates, methods of calculation, and campus assignment of students from the printouts used to compile this data.

Retention rates are provided only on the college overall. Please contact the Assessment, Research and Planning Office for detailed retention information by program of study. Retention is based on the number of first-time MTC entering students who continued their studies or graduated within two defined time periods. Please keep in mind the cohorts change from year to year. Also, it should be noted there may be small numbers in the cohort majoring in a specific program so dramatic changes could occur from one year to the next.

Job market information was collected from the South Carolina Employment Security Commission, Labor Market Information Division. The title of the report is South Carolina Industry and Occupation Projections 1996-2006.

Job Market Information Available on this Program of Study:

Total occupations equaled 1,769,520 employees in SC in 1996 and employment statistics project 2,023,820 personnel by 2006, an increase of 14.4%. Overall, the job market has looked steady since 1990 and will continue to be so through the year 2006. This is also apparent by the overall College job placement rate of 95% or more since 1994-95.

Focusing on MTC programs, jobs which show the greatest potential increases in employees in SC by 2006 include: Human Services, Legal Assistant/Paralegal, Dental Hygiene, Medical Assistant, Physical Therapy Assistant, Respiratory Care, Computer Technology, Electronics Servicing and Machine Tool Technology.

Although Dental Hygiene students gain some experience through rotation clinicals, the majority of their primary clinical experience is through the on-campus dental clinic at the Airport Campus. Qualified students can take the Dental Hygiene National Board, SC Board of Dentistry Licensure Exam and Southern Regional Testing Agency Dental Hygiene Examination to be provided employment opportunities among private dental offices and hospitals.

Employment data estimates 1,600 hygienists in SC in 1996. Projected for 2006 are 2,300 employees, an increase of 43.8%.

Upon completion of the Nursing (ADN) program, graduates are given the opportunity to take the National Licensure Examination for Registered Nurses to become RN's in SC. As with other Nursing and Health Sciences division's programs, the ADN program provides excellent job opportunities as demonstrated by its steady job placement rate.

SC statistics estimated registered nursing employment in 1996 at 23,330 personnel. This is expected to rise to 27,630 employees by 2006, an increase of 18.4%.

Upon completion of this program, graduates are given the opportunity to take the National Licensure Examination for Practical Nurses to become LPNs. This is an excellent field with many job opportunities in SC. Job statistics in 1996 estimated 9,890 LPNs employed in SC. A 9.2% increase by 2006 is projected over 1996 figures to bring the total to 10,800 in this nursing field.

Nursing Aids/Orderlies/Attendants projections indicate 17,750 in this occupation by the year 2006, an increase of 19.2% over 1996 figures of 14,890 persons. Home health aids will rise 56.6%, including 2,380 employees by the year 2006.

The Respiratory Care program curriculum blends classroom as well as laboratory and hospital experience for its students. Students take part in supervised patient-care learning while working with other health care team members. Graduates are eligible to take exams offered by the National Board of Respiratory Care. Since 1994-95, the program has retained a 100% job placement rate.

There were approximately 950 personnel employed as respiratory therapists in SC in 1996. By 2006, a 61.1% increase is expected with 1,530 personnel in the career field.

Job Market Information Available on this Program of Study:

The Arts and Sciences division at MTC encompasses a variety of programs. The Associate in Arts and Associate in Science degree programs are primarily for the student wishing to continue his/her education at a four-year educational institution. Other areas of study within this division include: Criminal Justice, Human Services, Early Childhood Development and Gerontology.

Job opportunities are especially excellent within the Human Services professions. A projected increase of 39.2% is forecasted for these professions for 2006 over 1996 figures.

Job Market Information Available on this Program of Study:

Students under the LAN Network Systems certificate program of study will be provided with the knowledge and skills to prepare for occupations relating to local area networks. Concepts, standards and protocols used in client server environments are addressed.

SC employment for "computer and related" occupations was estimated at 17,620 for 1996. This is projected to increase 69.7% by the year 2006 to 29,900 employees. System analysts are expected to rise 81.5% over that period.

Programs within the Industrial & Engineering Technologies and Engineering Transfer division are designed to offer highly skilled graduates to support the economic development of the Midlands. In addition to associate degrees, some flexible short-term certificates and diploma programs are available for those who wish to upgrade job skills.

Job opportunities for programs within this division are steady increasing. The Machine Tool field is expected to gain 43.5% more personnel over 1996 figures in SC by 2006. An increase of 57.5% is forecasted by 2006 in the area of data processing equipment repair technicians.

Job Market Information Available on this Program of Study:

No job market information is provided here because this is a non-degree program. The Associate in Science—Engineering Transfer curriculum is available for students wishing to complete a curriculum that is essentially equal to the first two years of engineering at the University of South Carolina. Students may choose from five disciplines: Electrical, Computer, Civil, Chemical or Mechanical Engineering. Students my transfer after the completion of these courses or take a few additional courses and receive the Associate in Science degree before transferring.

A practical hands-on approach offers EET students a theoretical approach toward repairing, maintaining, trouble-shooting and designing electronics equipment.

Electrical/Electronic technician employment in SC is expected to grow 14.5% by 2006 over 1996 figures of 2,760 personnel. Employees in this field will top 3,160 persons by 2006. With further education, a student may be employed as an electrical/electronic engineer. Estimated employment in SC for this occupation was 3,650 personnel in 1996. This is projected to increase 25.5% to 4,580 persons between 1996 and 2006.

Job Market Information Available on this Program of Study:

The fundamental knowledge and courses of MTC's Basic Electrical Wiring certificate may be applied to the offered diploma in Industrial Electricity. This program concentrates on electrical codes, print reading, wiring and AC/DC circuits.

Electrical/Electronic technician occupations equaled 2,760 employees in SC in 1996 and statistics project 3,160 personnel by 2006, an increase of 14.5%. Another occupation shown to exhibit growth over the same period is electricians, which will increase 14.2% by the year 2006.

The Mechanical Engineering Transition Certificate allows its graduates the opportunity to build on a future engineering Degree. This program fills the gap with knowledge the student gains in the first two years of post-secondary education.

With further education, an area of employment after this program of study includes mechanical engineers. SC mechanical engineering positions are expected to reach 5,360 in 2006 (an increase of 21.3% over 1996 figures of 4,420 employees.)

* The %'s for Hdct. & FTE Are A Proportion of the Total Division's Enrollment.
